To: "Hindmarsh, Olaf (C&LL)" <olaf.hindmarsh@staffordshire.gov.uk>

To Olaf Hindmarsh,

"You are aware of the support which the LA is wishing to exercise i.e. an initial review of progress so far with a member of the EHE team so that the Local Authority can be satisfied that Adrian is receiving a suitable education – you have declined this stating that it's not something Adrian requires."

"You confirmed that you are happy with the current arrangement and should you require assistance you will get in touch; given the concerns raised by Mr Graham Kimber to social services the safeguarding of Adrian will be looked into by them."

These statements are fine. Could it also be noted that we have provided you with our educational philosophy regarding Adrian and a list of activities he has undertaken to date.

"A request from me for examples of Adrian's work which demonstrates his interests and achievements – again you state that this is not something which Adrian would want to consider."

With regard to this statement, since our telephone conversation earlier we have spoken with Adrian about providing examples of his work. He has said he is happy to produce a powerpoint presentation to give an overview of some of the activities and interests he has pursued. We will forward this to you when he has completed it. This is on the understanding it is solely for you and is purely an illustration of some of his interests. It is not to be used as an example of work to be assessed or compared to others. If you wish or need to forward it to anyone else could you please check with us so we can ask Adrian if he is happy for his work to be shared.

If you have any questions or concerns please do not hesitate to get in touch.

Yours sincerely

Matt and Miriam Hupfield
